

Museum Essentials: Working Ethically

Stella Mann transcript

My name is Stella Mann, Museum Development Officer at Glenside Hospital Museum in Bristol.

Because we are very much a volunteer led museum and in fact, I am the only person who is paid we rely on volunteers and our visitors for our direction and priorities.

The Code of ethics is really helpful because it sets the precedents down, for just what we are able to do by engaging our visitors and inviting them to be volunteers and participate in our collections and the stories our collections tell.
